Table Injury; Tetanus Diphtheria
acellular Pertussis (Tdap) Vaccine;
Human Papillomavirus (HPV)
Vaccine; Shoulder Injury Related to
Vaccine Administration (SIRVA);
Bilateral Shoulder Injuries

Leah VaSahnja Durant, Law Offices of Leah V. Durant, PLLC, Washington, DC, for petitioner.

Althea Walker Davis, U.S. Department of Justice, Washington, DC, for respondent.

RULING ON ENTITLEMENT¹

On June 24, 2019, Jennifer Imm filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered bilateral shoulder injuries related to vaccine administration (“SIRVA”) as a result of a tetanus-diphtheria-acellular pertussis vaccine administered in her right deltoid and a human papillomavirus vaccine administered in her left deltoid on May 16, 2018. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

¹ Because this unpublished ruling contains a reasoned explanation for the action in this case, I am required to post it on the United States Court of Federal Claims' website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). **This means the ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all “§” references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

On November 16, 2020, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent agrees that "petitioner has satisfied the criteria set forth in the Vaccine Injury Table (Table) and the Qualifications and Aids to Interpretation (QAI) for a bilateral SIRVA injury: petitioner had no history of pain, inflammation, or dysfunction in her shoulders; her pain and reduced range of motion occurred within 48 hours of receipt of intramuscular vaccinations; her symptoms were limited to the shoulders in which the vaccines were administered; and no other condition or abnormality was identified to explain her symptoms." *Id.* at 6.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
